OBJECTIVE

My full name is Nguyễn Minh Trí. I was born on August 18, 2004, and I am currently 19 years old. I am studying at FPT Polytechnic College, where I am a second-year student about to graduate. My major is Website Development, with a specialization in Front-end Development.My personal goal is to become a Front-end Developer and UI/UX Designer. To put it simply, I want to focus on user interface design rather than spreading my efforts across multiple fields.

EDUCATION

FPT Polytechnic College   2022 - 2024

Website development

WORK EXPERIENCE

K-Tech   27/01/2024 - 10/04/2024

Freelancer front-end developer

I worked as a Front-end Freelancer for this project, which w as completed over three months with specific requirements, functionalities, and interfaces assigned by K-tech Company. The project was handed over to the company for further development.

ACTIVITIES

BACKEND ROOKIE HACKATHON   18/10/2023 - 10/01/2024

Contestant

I participated in a multi-round hackathon competition that tested and enhanced my technical and teamwork skills across various stages:
• Round 1: Focused on Java, SQL, and Ubuntu Linux.
• Round 2: Received offline training on the Spring Boot framework at a training center.
• Round 3: Consisted of two parts:
∘ Part 1: Completed an aptitude test to evaluate skills and knowledge.
∘ Part 2: Worked on a group project, presented, and demoed the group project.
Throughout the competition, I developed a user interface based on Figma designs, collaborated effectively with team members, participated in daily meetings to report progress, review code, share challenges, receive tasks, and estimate completion times.

CERTIFICATIONS

Backend Rookie Hackathon traning program   10/01/2024

HONORS & AWARDS

TOP 10 EXCELLENT GROUPS   10/01/2024
